

- Cat 621G Scrapers
- Cat 623G Scrapers
- Cat 627G Scrapers
- Cat 631G Scrapers
- Cat 637G Scrapers
- Cat 657G Scrapers
- Stiger towed Scraper
- Cat D6T Dozer, with pad blade, rippers & LPG tracks
- Cat D8T Dozer
- Cat D10R Dozer
- Cat 140M Grader, ALL WHEEL DRIVE & front 6 way blade
- Cat 140H Grader with front blade
- Cat 14M Grader
- Cat 16M Grader
- Cat 623 Watercart Scraper, 30,000 litres
- Cat 815F Compactor
- Cat 825H Compactor
- Cat 324DL Excavator with tilting hitch and 4 metre grader blade + ripper & all buckets
- Volvo A25D Dump Truck
- Volvo A30C Dump Truck
- Volvo A35E Dump Truck
- Volvo A40E Dump Truck
- Volvo 40ton Water truck, 40,000 litres
- Water truck on and off road
- Service truck
- Western Star Quad Float for all machine transport

Bernie Cornfoot and Sons Earthmoving, operate a range of custom built Laser buckets.

Capable of cross grading and with integrated rippers and low ground pressure, our laser buckets are capable of working at productive levels in environments (wet, swampy etc.) where scrapers and excavators fail to deliver efficiency. Coupled with Case Quadtraks, the extremely low ground pressure of the equipment also allows high production levels in environmentally sensitive areas.

They are equipped with cushion hitches, to deliver operator comfort and enable high speeds on haul roads. They are able to grade roads and stockpiles and rip hard ground; essentially taking the burden from graders working in a team of scrapers.

We have found over many projects, using a lazer scraper in a team of scrapers ensures ground can be ripped where necessary, haul roads kept tidy, and difficult cross grades managed. This translates to greater efficiencies from all the plant working in conjunction with the lazer scraper.

**Most of our machines operate GPS, and we offer GPS by choice of which you desire.
All machines are for wet or dry hire.**
